Executive Information:

Jason Pester

Chairperson, CEO & President

Pester, 28, was appointed Chairperson, Chief Executive Officer and President of the Company in September 1996. Since 1998, he has consulted on Web site development for American Airlines, Oracle and The Hartford, among others. Prior to founding SupremeGS, Inc., Pester was employed as an Advanced Technology Group software engineer for Interactive Software Systems, Inc., a developer of client/server software, and as a software engineer for Casio, Inc., a developer and manufacturer of electronic data devices and software. He holds a BS in Computer Science (1994) from the University of Utah, as well as an AS in Business Administration (1991), cum laude, from Ocean County College (NJ). Pester has attended eight SIGGRAPH conventions since 1988, taking a combined total of eight 3D animation, CGI and image-rendering courses. He also has attended over 15 other computer-related conventions since 1987, including BeDC Conference, Java Developer's Conference, Image World and Macworld.

Marta Jurek

Vice President, SupremeGS Media

Jurek, 27, was appointed Vice President of SupremeGS Media in November 1997. From March 1995 until joining the Company, she was employed as a software engineer for Software AG, a provider of client/server software and services, and performed work at the Utah Department of Transportation, Colorado Department of Health and California Department of Taxation. From January 1995 to March 1996, Jurek was employed as a software engineer for Footprints Incorporated, a Macintosh software developer. She is currently pursuing a Masters in Business Administration from the University of Utah and holds a BS in Computer Science (1994) from the University of Utah. Jurek has attended five major computer-related conventions since 1995, including BeDC, Java Developer's Conference, JavaOne, Macworld and SIGGRAPH.

Brian Kelley

Vice President, SupremeGS Worldwide Marketing

Kelley, 28, was appointed Vice President of SupremeGS Worldwide Marketing in November 1997. From June 1997 until joining the Company, he was employed as a public relations/marketing associate at Integra LifeSciences Corporation, a Plainsboro, NJ-based developer and manufacturer of innovative tissue-regenerating medical devices. Prior to working at Integra LifeSciences, he was a correspondent for the Ocean County (NJ) Observer daily newspaper. Kelley earned a BA in Journalism (with a concentration in Public Relations) from Rider University (NJ) in 1997, and also holds an AAS in Print and Broadcast Journalism (1995) from Ocean County College (NJ). He attended PC Expo in 1999 and Macworld in 1997.
